Conclusion: Continuing to cultivate knowledge on essential applications and outcomes of OMT on scar treatment will advance the understanding of science and osteopathic medicine by discussing the potential of osteopathic models, and integrative approaches such as beneficial non-surgical options, to everyday patient care.

Acknowledgements

We would like to thank the Research and Grants Committee at LMU-DCOM for allowing us on the DeBakey College of Osteopathic Medicine Science Student Research Grant. We would also like to acknowledge Dr. Anne Marie Zeller, DO, for her expertise, and phenomenal guidance throughout this project.
